

)

Inputs required

- Season: summer / winter
 - Category: Gold / Diamond
 - Travelers: list with age and type (adult / student)
 - Rooming / occupancy (single/double/triple) and nights per location/cruise
 - Visits list (sites) and whether adult/student prices apply
 - Transport bookings (route, vehicle type) with vehicle cost from table
 - Number of Cairo airport services (arrival/departure) — count each service per airport
 - Domestic flight segments (count)
 - Optional meals requested (#meals per person)
-

Age / Child rules (added as requested)

- **Child < 6 years: Free** (0 USD) for all cost components.
- **Child 6–12 years:** Pays **50%** of the per-person rate for all components **except domestic flights**.
- **Domestic flights: 125 USD per segment** charged **full** per passenger for each segment.
(Children 6–12 pay full 125; children <6 are free as above.)

Note: These rules override other per-person components (entrance, accommodation, guide, rep, transport shares, general fee). Children still **count** in the passenger headcount used to divide vehicle/guide/rep costs unless otherwise specified.

Room type rules (applied to accommodation base rate — base = per-person in double room)

- **Single supplement:** +70% → factor = **1.70**
- **Triple discount:** -10% → factor = **0.90**
- **Double:** factor = **1.00**

Application order for accommodation:

1. Take base_rate_per_person (from table for location/category/season).
 2. Multiply by occupancy factor (1.70 / 1.00 / 0.90).
 3. Then apply age rule: child 6–12 → ×0.5 ; child <6 → 0.
-

Full calculation steps (order — strict)

1. **Season & Category:** select correct tables for rates.
2. **Accommodation (per traveler):**

For each stay:

```
accom_person = sum_over_stays( base_rate(location,category,season) *  
occupancy_factor )
```

then apply age rule (child 6–12 × 0.5 ; child <6 = 0).

3. **Entrance fees (per traveler):**

For each visit: pick price = student_price if traveler.is_student else adult_price.

If age 6–12 → price *= 0.5. If age <6 → price = 0. Sum all visits.

4. **Transport (per vehicle):**

For each transport booking (vehicle_cost):

```
per_person_base = vehicle_cost / passenger_count (passenger_count includes  
children by default)
```

Then per traveler: adult pays per_person_base; child 6–12 pays per_person_base * 0.5; child <6 pays 0.

Sum transport charges per traveler across all vehicle bookings.

5. **Private Guide:**

```
guide_total = 30 USD * guide_working_days
```

```
per_person_guide_base = guide_total / passenger_count
```

Then per traveler: adult = base; child 6–12 = base * 0.5; child <6 = 0.

6. **Representative (Meet & Assist) in Cairo:**

```
rep_total = 20 USD * number_of_cairo_airport_services (count arrival or  
departure at each airport separately)
```

```
per_person_rep_base = rep_total / passenger_count
```

Per traveler: adult = base; child 6–12 = base * 0.5; child <6 = 0.

In Luxor & Aswan the rep service is included in transport cost (no extra rep charge).

7. **Domestic flights:**

domestic_per_segment = 125 USD per person per segment.

Children 6–12 pay full 125 USD for each segment; **children <6 are free** (per your rule).

Adults/students pay full.

8. **General expenses:**

general_fee = 60 USD per person (non-refundable once trip started).

Child 6–12 pays 30 USD; child <6 pays 0.

9. **Optional meals:**

15 USD per meal per person (child 6–12 pays 50% = 7.5; child <6 = 0).

10. **Upper Egypt / Cruise note:**

Ground transportation in Upper Egypt (e.g., Cairo↔Luxor↔Aswan) **is not included** in the cruise price — calculate separately as transport.

11. **Subtotal per traveler (before profit):**

Sum all components assigned to that traveler.

12. **Add profit margin (company):**

After subtotal and after adding the \$60 general fee, apply company profit:

```
final_per_traveler = subtotal_per_traveler * 1.10  
(i.e., add 10% to the subtotal).
```

13. **Rounding:** round all final monetary values to **2 decimal places** (USD). Use standard half-up rounding.
-

Important assumptions & clarifications (system should enforce)

- Passenger counts used to divide vehicle/guide/rep are **total travelers** unless user indicates an infant does not require a seat — default include infants.
 - Entrance fees: if traveler marked student, use student price; children 6–12 pay 50% of that chosen price.
 - Some hotels/cruises may have special child policies (extra bed, supplements) — system should flag and allow manual override.
 - If single traveler selects `single room`, apply single supplement to that traveler's accommodation.
 - If a component has special fixed pricing (e.g., some tombs with fixed fees), use the exact fee from the table.
-

Compact formula (per traveler i)

Let `components_i = accom_i + entrances_i + transport_i + guide_i + rep_i + domestic_flights_i + optional_meals_i + general_fee_i`

Then:

```
final_i = round( components_i * 1.10 , 2)
```

Where `general_fee_i` is 60 (adult), 30 (child 6–12), 0 (child <6).

Example (computed step-by-step)

Scenario: 4 travelers: 2 adults (A, B), 1 child age 8 (C8), 1 child age 4 (C4).

Itinerary (simple): Cairo, 1 night Gold (summer), visit Egyptian Museum, 1 day guide, 2 Cairo airport services (arr & dep), minibus from Cairo Airport to Giza (vehicle cost 40.44), no domestic flights, no optional meals.

Calculated results (rounded):

- Per-person transport base ($40.44 \div 4$) = **10.11 USD**
- Per-person guide base ($30 \text{ USD} \div 4$) = **7.50 USD**
- Per-person rep base ($40 \text{ USD} \div 4$) = **10.00 USD**

Before profit (per person):

- Adult: accommodation 65.00 + museum 12.20 + transport 10.11 + guide 7.50 + rep 10.00 + general 60.00 = **164.81 USD**
- Child (8): accom $65 \times 0.5 = 32.50$ + museum $12.20 \times 0.5 = 6.10$ + transport $10.11 \times 0.5 = 5.06$ + guide $7.50 \times 0.5 = 3.75$ + rep $10 \times 0.5 = 5.00$ + general 30.00 = **82.41 USD**
- Child (4): **0.00 USD** (free on all components in this example)

Group total before profit: 412.02 USD

Profit (10%): 41.20 USD

Final group total: 453.23 USD

Per-person final (after 10%):

- Adult final = $164.81 \times 1.10 = 181.29 \text{ USD}$
- Child (8) final = $82.41 \times 1.10 = 90.65 \text{ USD}$
- Child (4) final = **0.00 USD**

Deliverables I can produce next (if you want)

- Pseudo-code / JSON logic ready to implement in the AI engine.
- Excel template implementing these formulas (cells for traveler ages, counts, chosen visits, etc.).
- HTML snippet to show itemized invoice for clients (internal use: show final price only, but internal breakdown saved).

Egyptura العربية — منطق تسعير بدقة

المدخلات المطلوبة

- شتاء / صيف : **الموسم**
- الفئة : Gold / Diamond
- (بالغ / طالب) المسافرون: قائمة بها العمر والنوع
- وعدد الليالي لكل مكان/كروز (single/double/triple) توزيع الغرف
- قائمة الزيارات (الموقع) وتحديد حالة كل مسافر (بالغ/طالب)
- حجوزات النقل (الطريق، نوع المركبة) مع سعر المركبة من الجداول
- عدد خدمات المندوب في القاهرة (وصول/مغادرة) — كل خدمة في كل مطار تُحسب على حدة
- عدد مقاطع الطيران الداخلي (إن وجدت)
- اختيارية مطلوبة لكل مسافر (#وجبات) meals

قواعد سن الأطفال (كما طلت)

- على كل مكونات السعر (USD 0) مجاناً : أقل من 6 سنوات.
- من سعر الفرد لكل المكونات ما عدا الطيران الداخلي 50% يدفع : من 6 إلى 12 سنة.
- الأطفال 6-12 يدفعون 125 لكل (لكل مقطع للشخص، ويدفعه كل راكب كاملاً : الطيران الداخلي (مجاناً وفق القاعدة أعلاه 6 < مقطع، الأطفال).

ملاحظة: الأطفال يساهمون بعدد الركاب المستخدم لتقسيم تكلفة المركبة / المرشد / المنصب ما لم يحدد العميل خلاف ذلك.

قواعد نوع الغرف

- Single supplement:** +70% → **1.70** = معامل
- Triple:** -10% → **0.90** = معامل
- Double:** = **1.00** = معامل

ترتيب التطبيق:

- أخذ السعر الأساسي للشخص (السعر للفرد في الغرفة المزدوجة)
- ضربه في معامل الإشغال (1.70/1.00/0.90).
- تطبيق قاعدة العمر (طفل 6-12 × 0.5 ؛ طفل 6 = 0).

خطوات الحساب التفصيلية (بالتسلسل)

- تحديد الموسم و الفئة و اختيار الجداول الصحيحة:**
- الإقامة:**
لكل إقامة:

```
accom_person = sum( base_rate * occupancy_factor )
```

 ثم تطبيق خصم/إعفاء العمر .
- تذكر الزيارات:**
إن المسافر طالباً وإلا student_price لكل موقع: استخدم adult_price .
ثم جمع كل المواقع $6 = 0.5 \times 12$ ؛ طفل .
- النقل (كل مركبة):**

```
per_person_base = vehicle_cost / passenger_count
```

 (بما فيهم الأطفال)
ثم جمع لكل النقلات $0 = 6 \times 0.5$ ؛ طفل = base ; طفل 6-12 = base × 0.5 .
- المرشد السياحي:**

```
guide_total = 30 USD × number_of_guide_days
```

```
per_person_guide_base = guide_total / passenger_count
```

ثم تطبيق نسبة الأطفال (50% أو 0%)
- المنصب (في القاهرة):**

```
rep_total = 20 USD × number_of_airport_services
```

```
per_person_rep_base = rep_total / passenger_count
```

ثم تطبيق نسبة الأطفال .

(في الأقصر وأسوان المنصب مش محسوب منفصل لأن الخدمة مدمجة في النقل)

7. الطيران الداخلي:

لكل مقطع لكل مسافر — يُطبق كاملاً على كل راكب (بما فيهم الأطفال من 6–12 يدفعون كامل 125 USD للأطفال أقل من 6 مستثنون).

8. المصاريف العامة:

طفل USD 60 للشخص البالغ — طفل 6–12 يدفع 0.

9. الوجبات الاختيارية:

طفل 15 USD 6 للوجبة لفرد — طفل 6–12 يدفع 7.5 ؛ طفل 0.

10. ملاحظة الكروز وصعيد مصر:

النقل البري للصعيد منفصل عن سعر الكروز ويُحسب كخدمة نقل عادية.

11. جمع كل المكونات: المجموع قبل الربح (لكل مسافر):

12. إضافة ربح الشركة 10%:

طفل USD 60، ضف 10% بعد المجموع والـ 60:

final = round(subtotal * 1.10 , 2)

باستخدام تقرير نصف للأعلى (2 decimal) للأقرب سنتين: التقرير.

الافتراضات المهمة للنظام

- عدد الركاب لتقسيم التكاليف = إجمالي المسافرين (بما فيهم الأطفال) إلا في حالة توضيح العميل أن الطفل لا يحتاج مقعداً.

أسعار الدخول: إن كان المسافر طالباً استعمال سعر الطالب. الطفل 6–12 يأخذ 50% من السعر المختار.

إذا كان هناك سياسات خاصة بالفنادق/الкроوز حول الأطفال (سرير إضافي ، إلخ)، النظام يضع علامة ويفتح خيار

تعديل بدوبي.

غرفة فردية، يُطبق الـ+70% على سعر الإقامة لذلك الشخص hotel إذا المسافر.

(أ) لكل مسافر) الصيغة المختصرة

```
components_i = accom_i + entrances_i + transport_i + guide_i + rep_i + domestic_flights_i +  
optional_meals_i + general_fee_i
```

```
final_i = round( components_i * 1.10 , 2 )
```

مثال عملي (نفس السيناريو بالإنجليزي)

النتائج النهائية — مسافرين: بالغين، طفل 8 سنة، طفل 4 سنة:

- قبل الربح (لكل شخص)
 - بالغ = **164.81 USD**
 - طفل 8 = **82.41 USD**
 - طفل 4 = **0.00 USD**
- المجموع قبل الربح = **412.02 USD**
- ربح 10%: **41.20 USD**

- المجموع النهائي: **453.23 USD**
- بعد الربح لكل شخص: بالغ = **181.29 USD** ، طفل 8 = **90.65 USD** ، طفل 4 = **0.00 USD**

Egyptura Smart Pricing Logic

The Egyptura AI Agent follows a structured process to calculate the total price per person automatically, applying all internal rules and ensuring accuracy.

Step-by-Step Pricing Flow

1. Determine the Travel Season

The system first asks the client which season they want to travel (summer or winter). Prices are adjusted according to the selected season.

2. Select the Category

The client chooses between the **Gold** or **Diamond** category. Based on this choice, the system retrieves the corresponding accommodation and cruise prices per person according to the number of nights in each city.

The accommodation name is shown followed by the phrase “*or similar*” (e.g., *Steigenberger Hotel or similar*).

3. Visits and Entrance Fees

The system lists all requested visits and automatically extracts the entrance fees for each site from the official pricing table.

4. Transportation

The system calculates the cost of airport transfers and sightseeing transportation based on the relevant region and type of vehicle.

The total cost of transportation is divided by the number of travelers.

5. Private Tour Guide

The guide’s fee is **30 USD per day**.

The total is calculated according to the number of working days (days with visits) and divided among the travelers.

6. Representative Service

- In **Cairo**: 20 USD per service (per arrival or departure at each airport). The total representative cost is divided by the number of travelers.
- In **Luxor** and **Aswan**: included within the transportation service.

7. Domestic Flights

125 USD per one-way flight (per person), applied according to the itinerary routes.

8. General Expenses

A fixed non-refundable fee of **60 USD per person**, covering administration, coordination, hospitality details, and assistance.

9. Optional Meals

Lunch or dinner at selected local restaurants can be added for **15 USD per person per meal** (optional).

10. Profit Margin

After calculating all components, the system adds a **10% profit margin** for the company.

Important Notes

- **Upper Egypt ground transportation** (Cairo ⇔ Luxor ⇔ Aswan) is **not included** in the cruise price and must be calculated separately.
- All transportation prices are **per vehicle**, and costs are divided among travelers.
- All site entrance fees are **per person** (adult or student).
- The system must ensure consistency and transparency in all calculations, even though the client only sees the final total price.

Smart Price Calculation

The **Egiptura AI Agent** is designed to automatically calculate the total price per person based on all components of the trip.

This calculation is invisible to the client, who only sees the final price.

However, the AI must fully understand and accurately apply the internal pricing logic.

Categories and Seasons

Types of Packages Offered by Egiptura

Package Type	Accommodation	Private Guide	Transportation	5★ Cruise	Entrance Fees	Service
Gold	5★ Hotel	Included	Private	Included	Included	Personalized attention
Diamond	5★ Deluxe Hotel	Included	Private luxury	Included	Included	Exclusive experiences and VIP treatment

Tourist Seasons in Egypt

- **Summer:** May to September
- **Winter:** October to April

Seasonal variations may affect availability and rates.

Hotels and Cruises by Category

Gold Category:

- **Cairo:** Helnan Dreamland or similar
- **Nile Cruise:** Le Fayan II Nile Cruise or similar
- **Luxor:** Steigenberger Resort Aichti or similar
- **Aswan:** Tolip Hotel Aswan or similar
- **Hurghada:** Hilton Hurghada Plaza or similar
- **Sharm El Sheikh:** Renaissance Sharm El Sheikh or similar
- **Saint Catherine:** Morganland Village or similar
- **Abu Simbel:** Seti Abu Simbel Lake Resort or similar

Diamond Category:

- **Cairo:** Fairmont Nile City or similar
- **Nile Cruise:** Royal Signature Nile Cruise or similar
- **Luxor:** Steigenberger Resort Aichti or similar
- **Aswan:** Tolip Hotel Aswan or similar
- **Hurghada:** Hilton Hurghada Plaza or similar
- **Sharm El Sheikh:** Renaissance Sharm El Sheikh or similar
- **Saint Catherine:** Morganland Village or similar
- **Abu Simbel:** Seti Abu Simbel Lake Resort or similar

Accommodation Rates by Season (per person / per night) and Room Type Rules

Seasonal Price Table:

Location	Category	Summer (USD)	Winter (USD)	Meal Plan
Cairo	Gold	65	75	BB (Bed & Breakfast)
Cairo	Diamond	120	135	BB
Nile Cruise	Gold	75	95	PC (Full Board)
Nile Cruise	Diamond	85	120	PC
Steigenberger Resort Aichti	Both	75	75	BB
Tolip Hotel Aswan	Both	100	100	BB
Hilton Hurghada Plaza	Both	100	100	HB (Half Board)

Location	Category	Summer (USD)	Winter (USD)	Meal Plan
Renaissance Sharm El Sheikh	Both	100	100	HB
Morganland Village	Both	70	70	HB
Seti Abu Simbel Resort	Both	200	200	HB

Room Type Rules

- Single Room Supplement:**
+70% on the per-person rate in a double room.
Example: If the base price is 100 USD, the single room rate will be 170 USD.
- Triple Room Discount:**
-10% on the per-person rate in a double room.
Example: If the base price is 100 USD, the triple room rate will be 90 USD.

These rules apply to all locations and categories.

Entrance Fees to Attractions (in USD)

All prices are calculated per person using a fixed exchange rate of **1 USD = 45 EGP**. Rates are divided into **Student** and **Adult** categories.

Internal Transportation Prices (per vehicle, in USD)

General Calculation Rules:

- The cost is based on **private vehicle use** (not per person).
- The **total price is divided** among the passengers sharing the vehicle (maximum 16 people per minibus).
- If the client travels alone, they assume the **full vehicle price**.
- **Airport transfers** have the same price as any local transportation service within that city.

Available Vehicles:

- **Limousine:** 1–2 passengers
- **Minibus:** 1–16 passengers
- **Mini Coach:** 1–25 passengers
- **Coach Bus:** 1–50 passengers

Transportation Prices by Region (in USD per vehicle)

Region: Cairo

(Includes Giza, 6th of October City, New Capital, Fayoum, etc.)

Service	Minibus (1–16 pax)	Mini Coach (1–25 pax)	Coach Bus (1–50 pax)
Airport / October or Helwan	40.44 USD	63.56 USD	127.11 USD
Sphinx Airport	85.22 USD	158.89 USD	286.00 USD
New Capital Airport	124.44 USD	196.00 USD	294.00 USD
Half Day (City or Pyramids – 3 hrs)	50.56 USD	79.67 USD	166.11 USD
Full Day (City or Pyramids)	57.78 USD	89.78 USD	180.56 USD
Cairo / Alexandria – Port Said – Marina	98.22 USD	172.11 USD	268.67 USD
Cairo / Suez – Ain Sokhna	244.44 USD	396.11 USD	606.67 USD
Cairo / Fayoum	118.67 USD	199.67 USD	318.89 USD
Cairo / Dahab	211.11 USD	318.89 USD	606.67 USD
Cairo / Luxor	318.89 USD	491.11 USD	765.56 USD
Cairo / Aswan	430.00 USD	577.78 USD	981.11 USD

Region: Luxor

Service	Limousine (1–2 pax)	Minibus (1–16 pax)	Mini Coach (1–25 pax)	Coach Bus (1–50 pax)
Station ⇔ Hotel	6.00 USD	7.78 USD	10.78 USD	26.33 USD
Station ⇔ South Zone	6.78 USD	10.78 USD	13.78 USD	33.22 USD
Transfer within city	4.00 USD	7.78 USD	10.78 USD	22.56 USD
Luxor Temple	6.00 USD	9.00 USD	15.78 USD	34.11 USD
Karnak Temple	7.78 USD	10.78 USD	18.44 USD	43.78 USD
Dendera Temple	24.33 USD	38.00 USD	54.33 USD	142.67 USD
Edfu (round trip)	39.89 USD	50.44 USD	93.33 USD	214.44 USD
Aswan (visit or transfer)	59.33 USD	74.89 USD	118.44 USD	288.11 USD

Service	Limousine (1–2 pax)	Minibus (1–16 pax)	Mini Coach (1–25 pax)	Coach Bus (1–50 pax)
Hurghada	73.89 USD	92.22 USD	147.56 USD	318.22 USD
Dinner on the West Bank	21.44 USD	34.11 USD	50.44 USD	130.11 USD
Full Day on the West Bank	42.67 USD	70.89 USD	101.89 USD	265.89 USD
Overnight Stay	22.44 USD	35.89 USD	70.89 USD	136.89 USD

Region: Aswan

Service	Limousine (1–2 pax)	Minibus (1–16 pax)	Mini Coach (1–25 pax)	Coach Bus (1–50 pax)
Airport ⇔ Boat (or vice versa)	15.33 USD	21.11 USD	42.56 USD	71.44 USD
Train Station ⇔ Boat (or vice versa)	10.11 USD	13.56 USD	23.67 USD	38.11 USD
Philae Temple (day or sound & light show)	16.89 USD	23.67 USD	50.67 USD	80.89 USD
High Dam – Unfinished Obelisk	16.89 USD	23.67 USD	47.11 USD	77.56 USD
Abu Simbel	111.33 USD	138.00 USD	212.56 USD	394.67 USD

Practical Example

If **4** people share a **minibus transfer** from **Cairo Airport to Giza** with a total cost of **40.44 USD**,

the individual cost will be:

$$40.44 \div 4 = 10.11 \text{ USD per person.}$$

Domestic Flights

Prices per person and per route:

Route	Price (USD)

Land Routes

(when included in the package)

- Luxor ⇄ Hurghada: **Included** by road if specified in the itinerary.
-

Considerations for Combining a Cruise with Hurghada

- If the client travels from **Luxor to Hurghada**, the cruise must **start in Aswan and end in Luxor**.
- If the client travels from **Hurghada to Luxor**, the cruise must **start in Luxor and end in Aswan**.

 These routes determine the correct itinerary order to ensure smooth land connections without the need for domestic flights.

- All tours include a **certified private Egyptian guide** during the sightseeing visits mentioned in the program.
 - **Private guide fee:** **30 USD per day** (the cost is shared among the travelers in the group).
 - **Available guide languages:**
 - Spanish ES
 - English GB
 - French FR (upon request)
 - German DE (upon request)
 - The guide accompanies travelers throughout the planned day, providing cultural and historical explanations adapted to the group's language and interests.
-

Representative (Meet & Assist Service)

- **In Cairo:**
 - Representative service is provided **at each airport** (e.g., Cairo International Airport, Sphinx Airport, or the New Capital Airport).

- **Fixed price: 20 USD per service and per airport** (for arrival or departure).
 - The representative welcomes travelers at the airport, assists with **visa, customs, and luggage**, and offers a **personalized greeting on behalf of Egiptura**.
 - **The cost of the representative service is shared among all travelers in the group.**
 - **In Luxor and Aswan:**
 - The representative service is **included** in the land or cruise transportation cost.
 - Representatives handle **arrival and departure assistance** at airports, train stations, or cruise docks, ensuring a **smooth and comfortable experience** for travelers.
-

General Expenses (per person)

All travelers booking with **Egiptura** must pay a fixed fee covering comprehensive management and hospitality services.

- **Fixed price: 60 USD per person** (non-refundable once the trip has started).

This amount includes:

- Coordination and administrative management of the entire itinerary.
- Personalized supervision and follow-up throughout the trip.
- Bottled water and juices during excursions.
- Welcome gifts (travel kits, maps, and symbolic souvenirs).
- Exclusive support from the **Egiptura** team for emergencies or inquiries.
- Daily assistance for any logistical adjustments.

This fee is **mandatory** to ensure a **premium, well-organized, and carefully managed travel experience** in every detail

Optional Meals

Egiptura offers travelers the opportunity to add authentic meals at carefully selected local restaurants, enhancing the culinary experience throughout the journey.
